REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: No prior art has been found nor presented that either teaches or fairly suggests the production of a rubber composition, formed from a precursor, which comprises a first hydrogenated nitrile conjugated-diene copolymer modified by a metal salt unsaturated carboxylic acid ester, the first copolymer being derived from a first ethylenically unsaturated nitrile and a first conjugated diene; and a second hydrogenated nitrile conjugated-diene copolymer derived from a second ethylenically unsaturated nitrile and a second conjugated diene, wherein the first and second hydrogenated nitrile conjugated-diene copolymers are intermixed, and wherein the first and second ethylenically unsaturated nitriles each comprise at least one member selected from the group consisting of acrylonitrile and methacrylonitrile.

The reference to Severe et al, cited of interest in the prior Office Action of 17 November 2004, is not deemed to negate the patentability of the instant claims.

The preliminary Amendment of 12 April 2004 was entered and given full consideration in the prior Office Action of 17 November 2004.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
